George:

Cityscape Detroit is a non-profit group that advocates for good urban planning, good urban design, investment, adaptive reuse of old buildings, green spaces, pedestrian friendliness, etc. in Detroit. The officers and members of Cityscape volunteer tirelessly to improve Detroit's "built environment."

Please look at our Web site, www.cityscapedetroit.org, to see our mission, history, principles and the educational resources we have put online. The group has been taking public positions on urban planning and development issues; organizing educational membership lectures and tours; and making Detroit a better place to live for more than 20 years.

We would be interested in meeting with you to hear about your plans for Detroit, explain what we think is interesting and important, and find common ground for the betterment of the city

What date and time works good for us to meet?

On behalf of the officers of Cityscape Detroit,

Andrew Koper
